TODAY'S NEWS OF MEDICAL/SURGICAL EQUIPMENT, SUPPLIES AND SERVICES

Battery Powered Headlight System

The ONE™ HEADLIT battery powered system has a tether-less design, allowing surgeons complete freedom in the operating room. The ultra-lightweight design offers optimal comfort. ONE HEADLIT provides superior quality when compared to conventional light systems, with an optical navigation engine that is color-balanced for surgery and allows for light aperture, direction and intensity adjustments. **L.I.T. Surgical,** 500 N. Central Expressway, Suite 225, Plano, TX 75074. www.litsurgical.com, 866-963-3894
